

1. Today we are going to learn about PASSIVE VOICE. It is not an easy topic so this VIDEO will help you understand it a bit better. First watch the video and then copy the short version of the PowerPoint presentation in your notebook.
(Danes bomo spoznali TRPNIK. Za lažje razumevanje si poglej video razlago in potem prepisi spodnji Power Point v zvezek.)

VIDEO – watch and learn (poglej in poslušaj)

POWERPOINT – copy in your notebook (prepiši v zvezek)

2. **PRESENT SIMPLE PASSIVE.** Now that you watched the video it should be easier for you to make passive sentences on your own.

Open your STUDENT BOOK on page 57 and do exercise 5 in your notebook.

(Primere v nalogi 5 na strani 57 prepisi v trpniku v svoj zvezek. Korak za korakom)

Follow the steps shown in the video and I am sure you can do it.

1. Cars release *a lot of CO₂*. -active

A lot of CO₂ is released by cars. – passive

3. **Open your WORKBOOK on page 44 and do exercise 3, and on page 45 do exercise 6.** *(Naredi še nalogi v delovnem zvezku)*

4. **Congratulations! You've just completed your first 27 sentences in passive. It wasn't that hard was it?**

Can you do one more? In XOOLTIME there is one more sentence in active waiting to be put into passive by you. Piece of cake!

(V spletni učilnici XOOLTIME te čaka naloga kjer samo še en stavek spremeniš v trpnik. Saj bo šlo, kajne?)

(si opazil/a passive?)
